

# YOUNG PEOPLE'S GUIDE TO COP26

*\* The UN Conference of Parties on Climate Change*

**Climate change and other environmental issues are increasingly important to young people. We care about the future of our planet and its most vulnerable inhabitants, and we want to make our voices heard.**

But environmental governance is complex, confusing and often inaccessible. With COP26 being hosted in Scotland this year, it's more important than ever that young people are able to educate themselves about environmental governance, in order to contribute to the process.

We are creating a free, accessible Young People's Guide to COP26 with the aim of improving understanding of COP26, demystifying complex parts of climate change policy and empowering our audience to engage with governance and policy at a local and national scale.

It will be a collaborative educational resource, drawing on our own research whilst also featuring leading academics and experts in the field with any insights they may be able to share.

## FOLLOW ALONG!

We are currently in the process of developing a website where you will be able to access the guide for free. To keep up to date with our progress you can check out our [website](#), find us on [Instagram](#) and [Twitter](#), and sign up for [our mailing list](#)!

We would also love to hear from you if you have expertise in environmental governance (and related areas) and would like to contribute to the guide! Please email us at [guidetocop26@gmail.com](mailto:guidetocop26@gmail.com)
