Recycling with the new bins At the University of Edinburgh

The University of Edinburgh's Recycling & Waste Management system is based on three streams of material - "Mixed Recyclables", "Paper" and "Landfill".

We achieved **64.7% recycling and reduced landfill waste to 28% in 2009/10**. Please do your bit and help us to get even better!

Mixed Recyclables - clear bags / orange lids

- ALL packaging & wrappers
- Plastic bottles
- Tins / drinks cans
- Paper towels
- Plastic pockets
- Cardboard (flattened)
- Paper cups & plastic lids

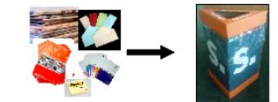

Empty containers/wrappers do not have to be washed but should not contain significant food/drink, otherwise the bag will be sent as landfill.

Glass bottles and jars should be collected separately. Email waste@ed.ac.uk for an uplift

Segregated Paper - clear bags / blue lids

- Office paper
- Envelopes (incl. windowed)
- Newspapers
- Magazines / catalogues
- Journals
- Phonebooks
- Post-it notes

This service keeps the paper clean and is therefore **free** for the University

Landfill Waste - black bags / grey lids

- Non-recyclables:**
- Food waste e.g. teabags & coffee granules
 - Packaging & wrappers full of food e.g. yoghurts out of date and full of content
 - Polystyrene
 - Padded envelopes
 - Snotty tissues
 - Broken crockery (wrapped up first in newspaper)

No hazardous / special waste (i.e. TVs, chemicals, electrical items, paints, batteries, IT), glass or liquid disposal via these bins

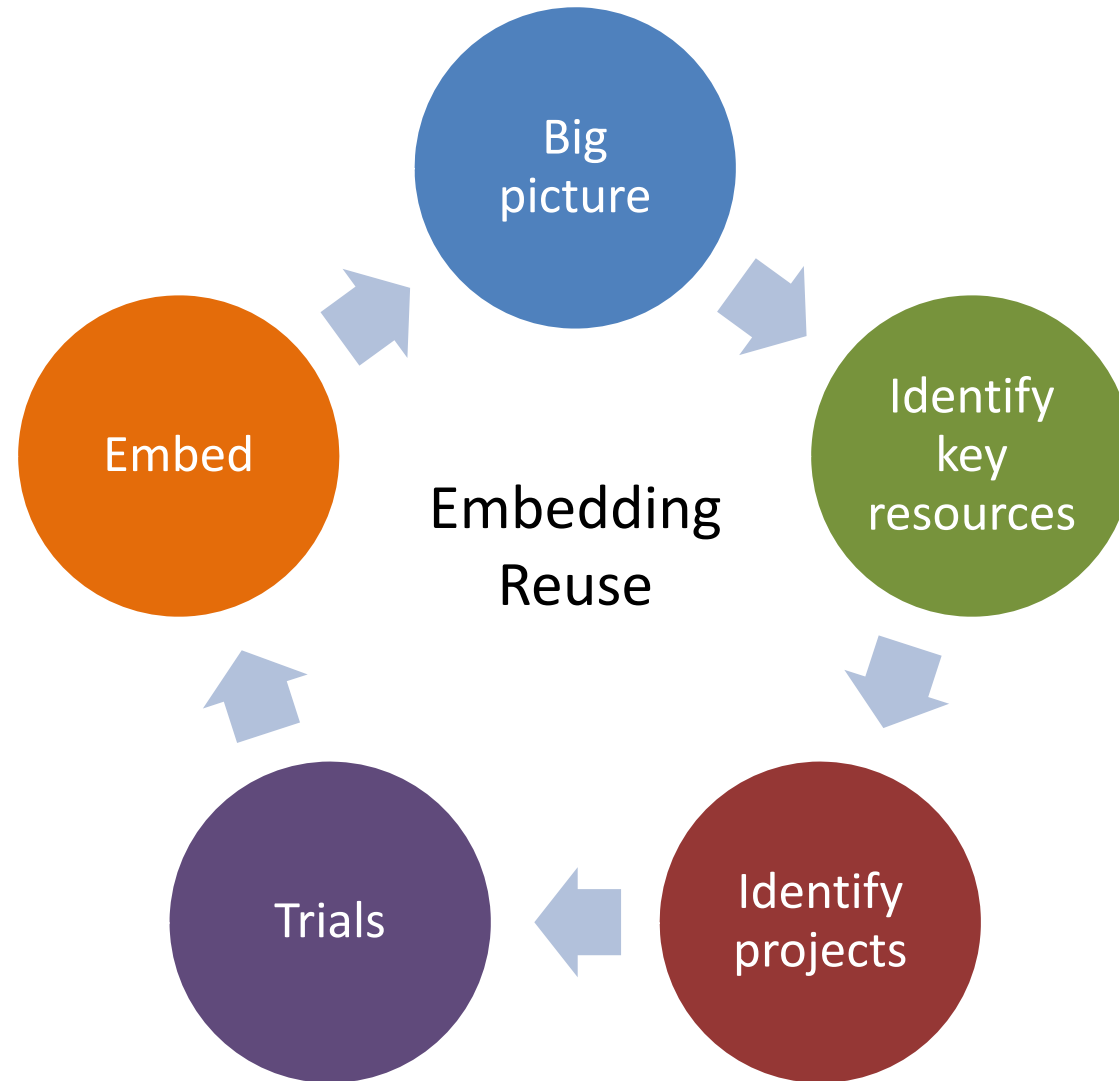

For more information check the website www.ed.ac.uk/recycling or contact Estates Waste & Recycling team on waste@ed.ac.uk.
